<b>TOTAL .....</b>	<b>100.00%</b>

**KEEP OUT OF REACH OF CHILDREN**

**WARNING** See back panel for first aid and additional precautionary statements

Net Contents 16 fl. oz. (473 ml)

# Earth-tone®

## 4n1 Weed Control Concentrate

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

### APPLICATION DIRECTIONS

Shake well before using. Mix 16 oz. of Earth-tone® 4n1 WEED CONTROL in 80 oz. (2.5 quarts) of water and spray weeds until foliage is wet. Thorough coverage is important. For spot treatment of individual weeds, apply the mixed solution to the center of plant. Repeat treatment to control new weeds growing from seed and re-growth from biennial and perennial weeds. Avoid spraying desirable plants. Contents of this container will cover 280 square feet.

### USE SITES

Use on weeds, grass, moss, and algae around and on buildings, sidewalks, fences, bark mulch, driveways, patios, foundations, gravel, vegetable and flower gardens, landscaped areas, lawns and trees.

### PESTS

Controls or suppresses most weeds, grasses, moss and algae, such as (but not limited to): annual bluegrass, barnyardgrass, black medic, broadleaf filaree, burclover, cat's-ear, common chickweed, common groundsel, common lamb's-quarters, corn spurry, creeping buttercup, curled dock, dandelion, English daisy, false dandelion, fiddleneck, foxtail fescue, geranium species, large crabgrass, lady's-thumb, locoweed, low cudweed, lupine, mouse-eared chickweed, mustard species, oxalis, plantain species, red clover, redroot pigweed, round leaved mallow, rush, sheep sorrel, shepherd's-purse, spiny annual sowthistle, stinkweed, wild carrot, wild hyacinth, and white clover.

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove and wash contaminated clothing before reuse.

### Environmental Hazards

This product may be hazardous to aquatic invertebrates. Do not apply directly to water. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

### FIRST AID:

#### IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Pesticide Telecommunication Network Hotline at 1-800-858-7378 for emergency medical treatment information.

### STORAGE AND DISPOSAL

**STORAGE:** Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material, tightly closed, in original container only, away from open flame. Do not store at temperatures below 39°F.

#### DISPOSAL:

**If empty:** Nonrefillable. Do not reuse or refill this container. Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

### SURFACE WATER ADVISORY:

Under some conditions, maleic hydrazide may have a significant potential for runoff into surface water (primarily via dissolution in runoff water), for several days post-application.

Conditions favoring runoff include poorly draining soils or wet soils with readily visible slopes, frequently flooded areas, areas where an intense or sustained rainfall is forecast to occur within 48 hours, areas overlying extremely shallow ground water, and areas overlying tile drainage systems that flow to surface water.
