KEEP OUT OF REACH OF CHILDREN

CAUTION See back and side panels for first aid and additional precautionary statements

Net Contents 32 fl oz. (946 ml)

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Pesticide Information Center hotline at 1-800-858-7378 for emergency medical treatment information.

STORAGE AND DISPOSAL

STORAGE: Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals.

DISPOSAL:

If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Please read entire label. Use only as directed. Shake well before each use. Thoroughly wet all parts of the pests and plants. Repeat treatment in 1-2 weeks if needed.

PESTS/SITES AND APPLICATION INSTRUCTIONS

Dynasty Hose End Sprayer Directions:

This 32-ounce bottle will cover up to 1296 square feet.

1. Before attaching the sprayer to garden hose, make sure that the Water Flow Switch (top switch) is in the "OFF" (to the rear) position.
2. Connect spray nozzle to garden hose while pointing sprayer in a direction away from face and body.
3. Remove the safety pin in front of the Product Flow Switch (side switch).
4. Rotate Product Flow Switch pin forward 90 deg. to the "ON" position.
5. Aim front of nozzle toward area to be covered and begin spraying by moving water valve (top switch) to the "ON" position (forward).

To Stop Spraying:

1. Turn Water Flow Switch (top switch) to "OFF" position (to the rear) and Product Flow Switch (side switch) back to the "OFF" position.
2. Turn off the water at the faucet.
3. Unscrew spray nozzle from garden hose, rinse outside of container and store any unused product according to the Storage and Disposal Directions

Controls: Adelgids, Aphids, Immature plant bugs, Leafhoppers, Mealybugs, Mites, Phylloxera, Powdery Mildew, Psyllids, Sawfly larvae, Scale, Whitefly.

For use on: Vegetables (Beans, Cabbage, Corn, Cucurbits, Melons, Peas, Potatoes, Tomatoes), Fruits & Nuts (Apples, Cherries, Citrus, Figs, Grapes, Pears, Nuts, Raspberries, Strawberries), Ornamental & Shade Trees (Birch, Evergreens, Holly, Oak), Houseplants; Flowering, Foliage and Bedding Plants.

POWDERY MILDEW CONTROL

For control of powdery mildew on fruits, vegetables, roses, shrubs, houseplants and ornamentals: Thoroughly apply to both upper and lower leaf surfaces. Continue every 7-14 days as needed until disease is eliminated.

DIRECTIONS FOR DORMANT USE

Controls egg stages of pests present in dormant season and scale insects, mites and mealybugs on dormant shrubs (such as roses), evergreens, woody plants, fruit trees and shade trees. For dormant use apply a 2% formulation, mix 4 teaspoons of concentrate with 1 quart water (or 2 fluid ounces concentrate with 3 quarts water). Thoroughly wet the dormant plants or trees.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

USE PRECAUTIONS

Oil removes the glaucous (blue) bloom from such evergreens as Colorado blue spruce and Koster spruce. Use caution on blooms and buds and on oil sensitive plants such as: Chamaecyparis, Cryptomeria, Japanese Holly, Red Cedar and Smoke tree. If concerned about sensitivity of plants, test spray a portion of the plant and wait several days to determine if burn occurs before spraying larger areas.

Do not combine with sulfur and do not follow a previous application of sulfur or apply sulfur following an application of this material until sufficient time has elapsed for safety (at least 30 days).

When used in combination with or immediately before or after spraying, this product may increase the phytotoxicity of dinitro compounds, or fungicides such as Captan, Folpet, Karathene and Morestan, or copper compounds. If in doubt, treat a small area with a combination spray and wait several days to determine if burn occurs.

Do not use Earth-tone® Horticultural Oil spray when temperatures are above 90°F. When temperatures drop below 32°F during the night, do not spray tree and vine crops until daytime temperatures have warmed to a point above 35°F and crops are free from moisture due to melting frost or heavy dews.

Use of the Earth-tone® Horticultural Oil on citrus after October 1 is capable of increasing the tree's susceptibility to cold damage.
