F1381

Bio-tone Beneficial Microbes:

Contains 895 colony forming units per gram (7 species) of beneficial bacteria that help promote faster greening, deeper roots, and improved soil structure.

Where to Use:

For use on all established lawns as well as new seed and sod installations.

Application Rate:

Apply with a drop or rotary spreader at 12 lbs. per 1,000 sq. ft. (30 lbs. covers 2,500 sq. ft.).

How Often:

- *Cool season grass:* Feed 3-4 times each year: early spring, late spring (optional), early fall and late fall.
- *Warm Season grass:* Feed 4-5 times each year: late winter, early spring, late spring, late summer, and fall.

Helpful Lawn Hints:

- Raise the cutting height to at least 3" for cool season grass and 2" for warm season grass.
- Keep mower blades sharp and never remove more than 1/3 of the grass blade in a single cutting.
- Use a mulching mower and return clippings to the lawn.
- Make sure soil pH is 6.5-7.0. Adjust with lime to raise and sulfur to lower.
- 1" of water per week is recommended for most lawns.
