|---|---|
| Total Nitrogen (N).....5.0% | ALSO CONTAINS NON PLANT FOOD INGREDIENTS |
| 0.5% Ammoniacal Nitrogen | Contains a total of 6,000,000 Colony Forming Units (CFU) per gram of the following species: |
| 1.5% Other Water Soluble Nitrogen | Bacillus amyloliquefaciens 1,000,000 CFU/gram |
| 3.0% Water Insoluble Nitrogen* | Bacillus licheniformis 1,000,000 CFU/gram |
| Available Phosphate (P ₂ O ₅).....2.0% | Bacillus megaterium 1,000,000 CFU/gram |
| Soluble Potash (K ₂ O).....6.0% | Bacillus pumilus 1,000,000 CFU/gram |
| Calcium (Ca).....5.0% | Bacillus subtilis 1,000,000 CFU/gram |
| Magnesium (Mg).....0.5% | Paenibacillus polymyxa 1,000,000 CFU/gram |
| 0.2% Water Soluble Magnesium (Mg) | |
| Sulfur (S).....1.0% | 1% Humic Acids derived from Leonardite |

Derived from: Feather Meal, Poultry Manure, Bone Meal, Alfalfa Meal, Greensand, Sulfate of Potash, and Sulfate of Potash Magnesia.

*Contains 3.0% Slow Release Nitrogen

Directions

1 lb. = 3 Cups

We recommend wearing gardening gloves when feeding your plants.

Established Plants

When to Feed:

Late Winter - (January/February) Pre-bloom application will enhance flowering.

Late Spring - (May/June) Post-bloom application will encourage better fruit set.

Fall - (September/October) This will ensure overall nutrient needs are met.

How to Apply:

Determine the amount of Citrus-tone[®] required from the chart below.

Sprinkle around the drip line of the plant and mix into the soil.

Plant food should not be applied within 6 inches of the trunk.

Water thoroughly after each application.

Potted Plants

New Plants:

When preparing soil for new plants, mix 2 cups of Citrus-tone per cubic foot of soil (1.5 tbsp. per quart).

Established Plants:

Sprinkle 1 tsp. of Citrus-tone for every 4 inches of pot diameter into the soil along the outer edge of the pot.

Double the rate for pots over 12 inches. Water thoroughly.

With frequent watering of potted plants, nutrients may be lost and more frequent application may be required. Feed every 30 days late winter to fall.

| Tree Height | Amount to Apply | Cups to Apply |
|-------------|-----------------|---------------|
| To 3 feet | 2 lbs. | 6 cups |
| 3-6 feet | 4 lbs. | 12 cups |
| 7-9 feet | 6 lbs. | 18 cups |
| 9 feet+ | 8 lbs. | 24 cups |
