*7.7% Slow Release Nitrogen from Feather Meal & Poultry Manure.

ALSO CONTAINS NON PLANT FOOD INGREDIENTS:
Active Ingredients:
Contains a total of 6,000,000 Colony Forming Units (CFU) per gram of the following species:

Bacillus amyloliquefaciens	1,000,000 CFU/gram
Bacillus licheniformis	1,000,000 CFU/gram
Bacillus megaterium	1,000,000 CFU/gram
Bacillus pumilus	1,000,000 CFU/gram
Bacillus subtilis	1,000,000 CFU/gram
Paenibacillus polymyxa	1,000,000 CFU/gram

99.9% Inert Ingredients (inert as a non-plant food ingredient) – Fertilizer

Bio-tone® Beneficial Microbes

Contains Bio-tone® Microbes that help make nutrients more available to your lawn and help promote faster greening.

Where to Use

For use on all lawns including newly seeded and sodded areas.

When to Use

Use as an All Season Lawn Food: Apply 4 times per year: Early Spring, Late Spring, Late Summer, & Fall, or anytime.

Application Rate

Apply at a rate of about 6 lbs. per 1,000 sq. ft.
(28 lbs. covers up to 5,000 sq. ft.).

How to Use

Apply to a dry lawn that has recently been mowed. Use a drop or broadcast spreader and be certain to overlap slightly to prevent striping. For best results water lightly after the application if rain is not expected within 24 hours.

Helpful Lawn Hints

- ✓ **No buzz cuts.** Raise your cutting height to at least 3 inches. This helps the grass develop stronger roots while it shades the soil making weed seed germination difficult.
- ✓ **Keep mower blades sharp.** Never remove more than 1/3 of the grass blade in a single cutting.
- ✓ **Use a mulching mower.** Yearly nitrogen requirements can be reduced by up to 1/3 when grass clippings are returned to the lawn.
- ✓ **Check pH annually.** Most varieties prefer a pH of 6.5 to 7.0. Adjust with Espoma Organic Lightning Lime® to raise, and Espoma Organic Soil Acidifier to lower pH.
- ✓ **Water thoroughly.** Most turf grasses will require 1 inch of water per week. In spring and fall, long and deep watering is preferred. In the heat of summer, lighter but more frequent watering is recommended. It is best to water in the morning.
